Hello, Luma

**THese Intelligent Little Lumas Work Together** to create the perfect WiFi network for your home. And of course, for you. Luma gives you the fastest WiFi everywhere. From the smallest apartment to the biggest of homes, so many things can be affecting your signal strength. Luma automatically sets up a mesh network that’s customized to your unique home, and it’s smart enough to keep that network running at full speed, full-time. All on its own.

$399
Three Pack
Better WiFi. Better everything.

**NO MATTER THE SIZE OR SHAPE OF YOUR HOME,** these Lumas will go to any length to create a customized network that fills each and every room with fast WiFi.

**LUMA SECURES YOUR DEVICES,** neutralizes any threats automatically, and keeps you in control of your network.

**PAUSE THE INTERNET,** set house rules for your network, and even make sure the kids are safe online. All from our app.
Get started

**TO GET STARTED** you’ll need the following items:

- One Luma
- Network Adapter
- Power Adapter
- Your Modem
Get the Luma app

Once you download the app, it’s easy. You’ll be guided through each step of setting up a Surround WiFi system that’s tailored to you and your home.

**ON YOUR IPHONE**
1. Go to the App Store.
2. Search and install Luma - Surround WiFi app.

**ON YOUR ANDROID**
1. Go to the Google Play Store.
2. Search and install Luma.
Create an account

WELCOME to the Luma app.

Welcome to Luma
Surround Wifi with speed, safety and security.

What's your email address?

What password would you like to use?
Customize for your home

A MESH NETWORK is only as good as the placement of the access points. Only Luma helps you do this.
Set up the first Luma

**PICK A NAME FOR YOUR NETWORK,** plug Luma into your modem, and connect Luma to power. Then restart your modem.
Set up other Lumas

**THE LUMA APP** will guide you, and tell you exactly where to place your next Lumas for optimal performance.
Home is where your Wi-Fi connects automatically.
Surround WiFi

YOUR HOME. YOUR NETWORK.

These powerful little Lumas work together to create an outrageously-fast, ultra-secure Surround WiFi network that’s customized for your home.

**WiFi** you’ll love

**PRIORITIZE** devices

**ADVANCED** network settings
Device prioritization (QoS)

MAXIMUM BANDWIDTH.
Now you are in complete control of which device receives priority preference of the fastest connection on your Luma network.

**PRIORITIZE** device

**PRIORITIZATION** confirmation
POWER TO PRIORITIZE.
